

Agenda Item To consider the principles of how Tockwith And Wilstrop Parish Council can achieve the Declaration of Climate Emergency resolved at our June meeting

I am going to open this agenda point with a statement before any discussion on this agenda item . At our last meeting we agreed to discuss the way forward tonight

An email was received from the clerk that councillors will be aware of . Councillors cannot make any arrangements themselves . Decisions must be made by the council which includes invitations to speakers at meetings . Any Councillor wishing to present to a future meeting should inform the clerk for it to be added to the agenda

No councillor has been appointed as a spokesperson for the council with delegated powers

Councillors should not be pressured by others under any circumstances. Predetermination is not permitted, and councillors should attend meetings with an open mind to fully debate an item before resolution of the council is mad. Councillors must abide by the council's policies and procedures and the code of conduct at all times

I propose this item be deferred to the next meeting for consideration
